SUBJECT INDEX

- After-cooking blackening as related to tuber size, 91
 discoloration, a bibliography of, 302
- Air-conditioned car maintains product quality, 63
- Akeley, Robert V. retires, 59
- Alaska Frostless, a frost resistant variety, 1
- Amino acid content as affected by storage, 463
- Anatomy and compositional variation within potatoes, histology, 361
 phenolics, enzymes and other minor components, 374
- Aphid, Green peach, control of, 56
- Ascorbic acid content as affected by storage, 463
- Baked potato mealiness, determination of a standard for, 136
- Bibliography on after-cooking discoloration of potatoes, 302
- Blackening, after-cooking, relation of size to, 91
- Blackening tendency, relation of, to potato composition and size, 98
- Blackspot, in Russet Burbank, 259
- Book reviews :
 Potatoes, production, storing and processing, 145
 Symposium on Foods : carbohydrates, 449
 The freezing preservation of foods : Vols. 1 & 2, 25. Vol. 4, 62
 The potatoes of Argentina, Brazil, Paraguay and Uruguay, 403
- Breeding committee report, 18
- Breeding, starch accumulation in mutation, 239
- Brown, Miles, honored by Potato Association of America, 342
- Bruise detection kit described, 352
- Bruise resistance of potatoes as affected by soil temperature, 75
- Carbohydrate-containing commodities, dry-matter content of, 234
- Cascade, a new variety released, 359
- Catechol for potato bruise detection, 352
- Certified seed potato production, 214
- Chemicals, effect of, on vine kill, yield and tuber quality, 315
- Chilling injury, reduction of, by warming, 38
- Chipping potato, Seminole, a new, 183
- Chipping quality, Jewel, a new variety with, 83
- Chipping, utilizing old potatoes for, 132
- Chipping variety, Norchip with high total solids, 254
- Chips, effect of vine killing chemicals on, 315
- Cold-stored potatoes, accumulation of sugars in, 291
- Collections of potato species from Mexico, 357
- Composition, relation of, to tuber size and blackening, 98
 variation, 361, 374
- Culture, water, growing potatoes in, 269
- Datura metel, a local lesion host for potato virus X, 355
- D-D, fumigation with, 387
- Decay in storage, 27
- Diploid, quantitative variation in, 14
- Diploid resistance to frost, 5
- Diquat effect on vine kill, 315
- Discoloration, oxidative, of tuber tissue, 227
 internal, studies on, 259
- DNBP effect on vine kill, 315

- Dry matter, accumulation of, by Russet Burbank, Oromonte and Red McClure potatoes, 111
- Dry matter content, estimation of, 234
- Dry matter relationship with specific gravity, 323
- Eastman, Paul J. honored by Potato Association of America, 344
- Emergence, as affected by Fusarex seed treatment, 407
- Enzymes and other minor components of potatoes, 374
- Fertilizer, effect of, on yield and quality, 69
- French fried potato quality, objective measurements of, 192
- French fried potatoes as affected by pectic substances, 168
- Frost resistant potato variety, Alaska Frostless, 1
- Frost resistance of diploid *solanum* species, 5
- Fumigation affects meadow nematodes and potato yields, 387
- Fungicides, soil residues of, reduce *Phytophthora infestans*, 174
- Fusarex, effect of, on emergence and yield of potatoes, 407
- Gas chromatography, analysis of potato sugars by, 201
- Gibberellins, as related to tuber formation, 185
- Golden nematode, inheritance of resistance to, in *Solanum famatinae* and *S. neohawkesii*, 128
- Golden nematode quarantine considered, 64
- Greenhouse production of potato seedlings, effect of light on, 243
- Green peach aphid control, 56
- Growing potatoes by water culture technique, 269
- Harvest date and irrigation influence on yield and quality, 336
- Harvest, temperature of soil at, effect on bruising, 75
- Heterodera rostochiensis*, see golden nematode.
- Inhibitors as related to tuber formation, 185
- Injury of potato foliage by systemic insecticides, 182
- Insecticides, systemic, injure potato foliage, 182
- Internal sprouting, 29
- International congress of food science and technology announced, 482
- Invertase role in accumulation of sugars, 291
- Irrigation effect on yield and quality, 336
- Jewel, a new potato variety, 83
- Leaf roll virus transmission, 23
- virus, resistance to, in greenhouse tests, 54
- Light, supplemental, effect of, on greenhouse production, 243
- Lipid composition during sprouting, 324
- Macrosiphum euphorbiae*, transmission of leaf roll virus by, 23
- Meadow nematode reduced by fumigation, 387
- Meloidogyne incognita*, resistance to, in *solanum* species, 251
- Merriam, Donald C. honored by Potato Association of America, 346
- Mexico, collection of potato species from, 357
- Minor components in potatoes, 374
- Moisture and soil relationship, reviewed, 398
- Myzus persicae*, control of, 56
- National Potato Utilization Conference, program of, 147
- Necrosis, influence of, on internal sprouting, 29
- N. P. K., accumulation of, by Russet Burbank, Oromonte, and Red McClure potatoes, 111
- Nitrogen, total, in potato seedlings, 273

- Nonprotein nitrogen in potato seedlings, 273
Norchief, a smooth red-skinned variety with high solids, 298
Norchip, a new chipping variety with high solids, 254
Norland, effect of fertilizer on yield and quality of, 69
Nutrient requirements studied by water culture, 269
Organic acid content as affected by storage, 463
Oromonte, accumulation of dry matter and N.P.K. in, 111
Paraquat, effect of, on vinekill, 315
Pectic enzyme production by *Pseudomonas fluorescens*, 414
Pectic substances and the texture of french fried potatoes, 168
Phenolase, studies on, in Russet Burbank, 259
Phenolics within potatoes, 374
Physalis floridana, *see* virus, leaf roll
Phytophthora infestans reduced by fungicides, 174
Pinkey associated with pectic enzyme production by *Pseudomonas fluorescens*, 414
Potato Association of America, The
 abstracts of papers presented at annual meeting, 430
 annual meeting and call for papers, 65, 90
 annual meeting highlights, 350
 annual meeting program, 147
 committees for 1969-70, 477
 extension committee compiles list of potato publications, 352
 information for authors, 109, 224
 international relations committee report, 474
 honorary life members recognized:
 Brown, Miles, 342
 Eastman, Paul J., 344
 Merriam, Donald C., 346
 Sparks, Walter C., 348
 minutes of executive committee and annual meeting, 442
 varieties and breeding committee report, 18
Potato seedlings, greenhouse production of, 243
Potato sugars, analysis of, by gas chromatography, 201
Pratylenchus penetrans reduced by fumigation, 387
Prep, effect of, on vine kill, 315
Pride, a new early potato with shallow eyes and scab resistance, 88
Processed dice, translucency of, 227
Protein nitrogen in seedling potatoes, 273
Pungo, effect of harvest date and irrigation on, 336
Pseudomonas fluorescens, production of pectic enzymes by, 414
Pseudomonas solanacearum, resistance to, in *S. phureja*, 451
Quality of Norland affected by fertilizer, 69
Quality of French fried potatoes, 192
Quality of Superior and Pungo as affected by harvest date and irrigation, 336
Quantitative variation in diploid potatoes, 14
Red McClure, accumulation of dry matter and N. P. K. in, 111
Red River Valley, effect of vine killing chemicals in, 315
Root knot nematode, resistance in solanum species to, 251
Rosette sprout formation, influence of, on internal sprouting, 29
Russet Burbank, accumulation of dry matter and N. P. K. in, 111
Russet Burbank, blackspot in, 259
Saskatchewan, effect of fertilizer on Norland in, 69
Scab resistance in Pride, 88
Schultz, Eugene S., dies, 470

- Seed transmission of potato spindle tuber virus, 247
